coming up and they offer some of the exciting positions in their company, of you are really looking forward to it. You can also pursue your career with mathematics; this is a very demanding line.

Hard work and labor is required, no matter which line is that, if you can guarantee that, every field guarantees a great opportunity for you.

### **Career After 12th Commerce Without Math's**

There are multiple options for career after 12th Commerce without Math's. However, before you go for choosing the right career, here is a bit of career advice. You should always be clear about your passion. Take the career steps that bring you closer to your passion subject.

Multiple career options like the CA, B Com, BBA, BBM, BA, Hotel Management, Animation, Fashion designing, journalism and defense services are present so take the decision after careful decision-making.

Since you have chosen commerce in 12th, a career in Chartered accountancy may be just suitable for you. You get to earn high remuneration as a chartered accountant. For being a Chartered Accountant, you should be passing the CPT or the Competency Professional Test. For appearing in the CPT exam, you should be registering yourself with the ICAI or the Institute of Chartered Accountants in India. You can register yourself for the CPT after class 10, but you can only seat for the exams after you have passed 12th.

These exams are held twice a year, generally during June and December. The exam will have three set of tests called the PE1, PE2 and the final exam. You will also have to gain practical experience of two and half years after passing the tests with a registered chartered accountancy firm, but that is only later on. First, you should be passing the tests.

For career after 12th commerce without Math's, there are plenty of other options too as mentioned in the first paragraph. Although the common direction that people take is to enroll in a B.Com course, but if you feel a knack for arts then you can enroll in a BA course as well.

You can also enroll in a B. Sc course, but you should know that for both B. Sc and B.Com you will have to encounter Math's as a subject. If Math's is difficult for you, you can go for a BA course. A journalism course would not also require mathematics as a subject.

Alternative new age courses like animation, fashion designing and hotel management are also available. If you have a passion for something creative, you can as well go for them.
